**Re: Atrium Monitoring @ 19945 Brydon Crescent, Langley, BC V3A 1J6**

This is to advise you that Vancouver Fire and Radius Security, a ULC listed company (#10245), has been contracted to monitor the building fire alarm, sprinkler system and elevators at the above noted address. On September 29<sup>th</sup>, 2022, we installed our monitoring equipment and tested through all zones. Alarm, Trouble and Sprinkler Supervisory signals were received at our monitoring station. Contract is in place for 36 months from installation date.

Our monitoring station is ULC-listed to provide the full monitoring service available under the ULC Fire Protection Certificate Service for Fire Protective Signaling Systems.

The signals were confirmed at the central station, and we have applied for the ULC certificate for this site. The certificate will be posted on site once it has been received from ULC.

Should the monitoring service be cancelled, Vancouver Fire and Radius Security will inform the City of Langley in writing.

If you require more information, please contact the fire monitoring department of Vancouver Fire and Radius Security at 604-232-2407.

Yours truly,

*Kamryn Siebert*
