

Gutter System Workmanship Warranty

Upon completion of a new gutter system, MHC Gutters, herein known as the “contractor,” guarantees for a period of one (1) year, from the date of completion of said gutters, to repair deficiencies and flaws in workmanship directly attributed to the contractor's installation of said gutter system.

This guarantee is subject to the following conditions:

1. This guarantee shall become null and void if the contractor is not paid in full for said gutter system according to the original estimation and any additional services if such were requested.
2. Any and all damage to said gutter system, the building or its contents caused by fire, snow, ice, hail, lightning, wind, earthquake, or any other acts of nature is expressly excluded from the contractor's guarantee.
3. The gutter system will be sloped to the best of the contractor's ability and in accordance with the existing structure. If gutter system is damaged or is not able to function properly as a result of structure settling, unlevelled structure or its components, and/or failure of materials used in construction of building, the guarantee becomes null and void.
4. Damages resulting from failure to provide reasonable and necessary maintenance by regularly cleaning of debris from roof and inside of gutters nullify this guarantee.
5. Notification of alleged defects of said gutter system must be made promptly and allow for inspection and assessment by the contractor. Failure to notify the contractor of defects within a reasonable time will void the warranty and make the contractor not liable for any damages to the building and/or its contents resulting from defects in said gutter system.
6. The guarantee is null and void if repairs or alterations are made to the said gutter system by anyone other than the contractor, before the contractor is notified first and given an opportunity to perform an inspection and to make recommendations necessary to restore gutter system.
7. This warranty is for the contractor's workmanship only, and does not cover defective materials, which would be covered by the material supplier's warranty of up to 40 years (pro-rated).
